8th–9th of November 2022**

And

WAVE-IT Final Conference

Project Erasmus+ 2019-1-CZ01-KA203-061386

9th–11th of November 2022

Faculty of Education, Palacký University in Olomouc

The international final conference of the WAVE-IT project will take place on 9-11 November 2022 at the Faculty of Education at Palacký University in Olomouc, the Czech Republic. The outputs of the project, which have addressed two important areas of education, namely the 21st century skills and education for entrepreneurship with an emphasis on the concept of sustainable development, will be presented at the conference. A sub-theme of the conference will be, among other things, an effort to reflect on current events in the society that represent a challenging situation that requires a lot of strength to cope with for many teachers, other school staff, students, pupils and their families. It is a matter of blending positive and negative emotions, resilient behaviour and building self-confidence. All this needs to be supported and developed during these challenging times.
